## Description

---

JET's metalforming and shaping machines are used by metal working craftsmen to form compound curves in sheet metal for the restoration of collectible cars, motorcycles, and airplanes. JET's English Wheel is designed with a heavy duty frame and has an upper rolling wheel which comes standard with 4 rolling wheels and 10 lower anvil wheels with different crowns to create different radius. Rolls beads and forms aluminum and copper up to 1/8" thick while rolls beads and forms mild steel sheet metal up to 16 gauge.
